Abstracts

Automatic baby swings are used as an alternative to keep babies engaged when parents are busy in household chores. Automatic baby swings help solve the problem of taking babies on lap, as they help keep the babies calm and occupied because of their natural swinging features. These swings are available in different varieties depending on the weight and age of babies. Modern baby swings have features like pre-installed music, including lullabies to entertain them. Also, different colored toys are attached to swings to draw the baby's attention.
