A vehicle's window film will protect skin from the harmful UV rays of the sun that can lead to skin discoloration or even melanoma. In addition to the protection you get to your skin, auto window tint protects the interior of your vehicle. Just like Ultraviolet light can discolor and damage your skin, it can do the same to your vehicle's interior. Solar Control Window Films is a highly engineered, optically clear, polyester film composite. It undergoes various treatments to provide safety, security, solar control and decorative enhancements for transportation glazing.
