Decision makers worldwide are under tremendous pressure to optimize their business operations, acquire new customers, and increase their market share, thereby driving long-term profitability. Business analytics is used for strategic decision making, enabling organizations to understand their customers, optimize operational cost, and improve business efficiency and competitiveness. The demand for regulatory compliance and transparency is high across sectors such as BFSI and healthcare. Enterprises in these sectors need to comply with regulatory norms such as Basel III and Solvency II. Business analytics outsourcing helps enterprises addresses such compliance requirements by increasing their transparency.
