Standard harmonica models usually have two handles on the side. They are classic models, and some harmonicas fold up to make the instrument easy to transport. There are two basic types of folding models, one that folds into itself, with the bellows covering the top. Another style folds into a whole, and a single lid covers the entire instrument. It's called a suitcase model. They are easier to fold and unfold, and a removable cover can be used as a stand to lift the instrument to a higher playing height.
