Abstracts

The concern for animal welfare has increased significantly in the past decade. With animal organizations setting up and campaigning against poultry and egg manufacturers, many companies are taking up initiatives for farm animal welfare. Cage free eggs market in the Europe region has witnessed significant growth after egg manufacturers have collaborated with animal welfare organizations. It is noticed that the lifestyle of hens affects their health and alters the nutrition status of the eggs. Studies have reported that cage free eggs have larger and deep orange yolks, which are known to have more fatty acid levels but no effect on the levels of cholesterol and are also tastier as compared to the conventional cage laid eggs.
