Abstracts

Cannabis retail POS provides dispensaries and other cannabis retailers with the means to sell their products and remain compliant with federal and state regulations. These products contain many of the same features as retail POS software, but with added functionality designed specifically for the cannabis industry. Using cannabis retail POS software, dispensaries can collect payment, track inventory, and maintain accurate tax records. These tools are typically used by employees, managers, and owners to complete each transaction and to perform back-office tasks. Cannabis retail POS solutions may be used in conjunction with a retail management system or accounting software to help manage the entire retail business.
