Abstracts

CBD capsules are a quick and easy way to consume cannabidiol allowing you to take your prescribed dose of CBD in a convenient and discreet fashion, rather than placing the desired dose under your tongue or into food or drink simply pop a capsule in your mouth. There's also no need to measure the amount needed. Once you have decided upon the required dose you should be able to find a capsule that suits your needs. CBD oil is highly concentrated and it is very easy to take too much accidentally. This may result in minor unpleasant side effects (dizziness, dry mouth, mild nausea). Taking capsules eliminates this problem as the dosage is predetermined and although capsules may take a little longer to take effect, when they do, the duration can be significantly longer.
