Abstracts

Ceylon cinnamon (*Cinnamomum verum*) is a type of cinnamon that comes from the bark of an evergreen tree. Sri Lanka provides about 80% of the world's supply. The oils found in Ceylon cinnamon are thought to reduce spasms, reduce gas, and fight bacteria and fungi. Obtained from the barks and leaves of trees that are scientifically known as *Cinnamomum zeylanicum*, Cinnamon oil is known for its numerous uses and health benefits. Cinnamon oil of the highest quality is manufactured in Sri Lanka, using Ceylon Cinnamon the finest of the cinnamon in the world. Ceylon Cinnamon oil is admired for its unique fragrance when compared to other essential oils. Cinnamon oil is made from the leaves or the bark of the plant. Cinnamon leaf oil carries a musky and spicy aroma along with a light-yellow tinge that differentiates it from the red-brown colour of the cinnamon bark oil. Extracted from the outer bark of the tree, cinnamon bark oil is considered to be expensive for day to day use since they are extremely refined.
