Abstracts

Chickweed is an annual weed which is native mostly to Europe and few parts of North America. The chickweed plant (*Stellaria media*) prefers to grow in low-temperature season. The plant is consumed in whole as a leafy vegetable and also used in animal feeds mainly in poultry sector from which it has gained its name. The newer application involves supplements, oil, tea, and extracts which are anticipated to fuel the growth of the chickweed market over the forecast period. Chickweed contains herbal flavonoids and important elements which helps the human body to reduce effects of a number of ailments and lose weight. The chickweed oil is used largely in skincare products to gain a cooling effect and improves the condition of the damaged regions. The chickweed tea is one of the most trending products which is consumed for its soothing effect and weight loss effect. The chickweed market is expected to be dominated by Europe owing to its traditional market and presence of large consumer base for natural medicine and supplements. The chickweed tea segment is anticipated to dominate the global chickweed market over the forecast period.
