Abstracts

Information system security expert certification (CISSP) is the leading certification for security experts, allowing them to demonstrate their knowledge and experience in information security. It is vendor-independent and an honor of achievement, recognized globally, in part because it is the first information security certification to meet the stringent requirements of ISO/IEC standard 17024, which is an assessment of compliance with an organization responsible for certification. CISSP training provides examinees with a theory-based approach to learning about the safety process. To make them fully understand information security and pass the CISSP exam.
