Abstracts

Due to the increasing awareness of the eco-friendly packaging the market of clay coated paperboard is growing significantly. A clay coated paperboard is a thick paper material with clay coated on its surface. The clay coated paperboard is gaining immense market attention owing to its numerous benefits stiffness, calliper, durability and smooth surface for printing and customization. Out of these advantages, the major benefit is that the clay coated paperboards are recyclable as it consists of paper pulp. Unlike plastic packaging, it does not pose a threat to the environment. Also, these clay coated paperboards act as a good barrier of moisture and thus, many food companies are using the clay coated paperboards in packaging of foods such as pet food, bakery items, cereal and others.
