Abstracts

Coffee is one of the most popular beverages around the world. There is a significant increase in the acceptance and appreciation of coffee as a beverage worldwide. Coffee's taste depends on its essential ingredient. Coffee is a beverage which is made from roasted beans of the coffee plants. Coffee beans vary in their shape, size, color, and flavor which depends on the region and conditions in which they are grown. The coffee plant is a native to the subtropical areas of Asia and Africa. Whereas, now the coffee plant is also cultivated in Central and Latin America as well. The coffee is prepared from two types of coffee beans namely Robusta and Arabica as well as the combination of these two beans. Arabica beans have only 1.5% caffeine content compared to 2.7% in the Robusta. Moreover, in the U.S. the millennial generation are accelerating the demand for cold coffee under the influence of coffee shops which have significantly pushed the cold-serve. According to National Coffee Association, iced coffee is consumed mostly by 18 to 25 year old which is more than twice of any other age group.
