## Abstracts

Sesame oil, also known as gingelly or til oil, is obtained from sesame seeds. It plays a prominent role in Asian cuisine and also alternative medicine. Oil is expressed from sesame seeds either by simply crushing or toasting over heat. The first method provides cold-pressed sesame oil. While cold-pressed sesame oil is pale yellow, hot-processed sesame oils have darker shades and markedly different flavor. Apart from the mild, nutty flavor of cold-pressed sesame oil, it contains a higher proportion of fatty acids than sesame oil obtained from heated seeds. In addition, the sesamol content of cold-pressed sesame oil protects it from oxidation and, therefore, increases its shelf-life.
