## Abstracts

The commercial pizza oven category includes several subcategories of well-known commercial ovens. It could make pizza turn out crispy crusts, sometimes with a hint of smokiness. The conveyor and impinger could be thought of as more of an industrial pizza oven, churning out pies by the dozen with little human involvement, which makes them perfect for chains and quick-service establishments. Meanwhile, the countertop pizza oven allows even space-limited kitchens to add new items to their menus, with options that allow par baking of fresh pizzas and reheating of frozen pies.
