Abstracts

Computer Glasses is the very high protection that filters out almost all of the blue light for a person who spends a lot of time in front of a smartphone screens, computer or TV. Smartphones, tablets, computers, televisions and GPS devices all emit blue light. Long exposure can lead to eye strain, eye fatigue and even sleeplessness. Blue Light Blocking Glasses ensures a more relaxed vision and better ocular health. This is a protective coating that reduces the blue light emitted by digital screens. It is the optimal solution for the large group of users who come into contact with digital screens throughout the day, including students, gamers, young professionals, office workers, and children.
