## Abstracts

Introduce modern cash register software in the management of chain convenience stores to realize the control and transmission of huge commodities in chain convenience stores, thus facilitating the management and decision-making of the sales industry. A good chain convenience store management system should be able to help the sales department improve work efficiency, and help convenience store staff to use computers to manage, input, output, search and other related data of the store very conveniently, making it cluttered. The data can be specific, visualized, rationalized, etc.
