## Abstracts

In the animal rights movement, cruelty-free is a label for products or activities that do not harm or kill animals anywhere in the world. Products tested on animals or made from animals are not considered cruelty-free, since these tests are often painful and cause the suffering and death of millions of animals every year. Cruelty-free beauty means the product that has not been tested on animals, and does not contain any animal ingredients. Free-range, cage-free eggs and dairy products still cause the suffering and deaths of animals.
