Abstracts

Data entry services providers utilize professionals who manually enter and update data into a database. Data is often copied from paper documents and entered digitally. Data entry professionals typically have a goal or quota to reach when entering data daily. Professionals are expected to have proficient typing skills and a high word-per-minute (WPM) typing skill. Data entry services can work alongside document scanning services., as well as document capture software. Entry professionals can use a scanned document with implemented optical character recognition (OCR) to cut down on manual typing.
