Abstracts

Dental tourism is an activity of going from one country to another with an affordable and accessible means for dental treatment. In Europe, it is also known as 'dental vacation' or 'dental holidays'. This Industry is increasing fast and prices differ from country to country. The things that need to consider when choosing a dentist for medical tourism are price, location, and service quality. Individuals travel to other cities and countries who prefer low-cost treatment this is expected to drive the market sales. The market is anticipated to increase due to the rising healthcare costs and low rates in emerging countries for dental treatment. High cost of treatment, long waiting times for patients, and increased awareness of oral health are the factors driving the market sales.
