Abstracts

Digital banking multichannel solutions enable a bank to deliver integrated and unified customer experience and transaction functionality on customer-owned self-service devices and channels. These solutions may also support external partners' and third parties' applications, widgets and apps to deliver additional functionality. They may also support the bank's customer-facing channels and devices. Digital banking multichannel solutions enable bank CIOs, digital leaders and operations executives to improve the efficiency and reduce the cost of delivering services to supported digital devices and channels. They also improve the integration of those channels with back-office and other systems.
