Abstracts

A Digital business card, or virtual business card, is often shared via email in your contact signature. Instead of mentioning your social details in the body of the email, it's easier to have them all in an e business card at the bottom in the form of a signature. Most virtual business card tools will help you generate a card to add as the signature to your email.

The purpose of a digital business card is simple: to help you connect with more potential clients, partners, and co-workers.
