Abstracts

A dropper is a small tube of plastic or glass with a hollow rubber part on one end which allows drawing up and dropping of a precise quantity of liquid. A dropper is durable, lightweight, and latex free. Hence, it is widely used in food and beverages, pharmaceuticals, medical, cosmetics, and personal care industries. Droppers are manufactured from high-quality plastic or glass raw material with utmost care and precision, as these are required for accurate dosing delivery. Droppers are available in a variety of styles, colors, and sizes depending upon the particular application.
