## Abstracts

The dust-free road sweeper is a dust-free road sweeper specially developed for the current haze environment. The entire operation process does not need to be sprinkled with water, and the dust is small. It is suitable for highway cleaning and cleaning at all levels. The vehicle has strong adaptability and advanced technology. It possesses proprietary core technologies such as roadside stone cleaning devices, left and right distributed dust-free rolling sweep nozzles, cleaning width adjustment, filter clogging detection, etc., and solves the current problem of dust on dry road sweepers. No need to sprinkle water, it can also work in rainy days through the special air duct changing device, which can realize all-weather operation.

This report contains market size and forecasts of Dust-free Road Sweeper in global, including the following market information:
