Abstracts

Education Finance software products help educational institutions automate their financial management processes. Administrators and budget office officials at a range of educational institutions, from K-12 schools to colleges and universities, use these tools to keep track of crucial financial information and streamline processes like budgeting and purchasing. Education Finance software integrates financial data across the institution's departments, helping to eliminate data silos. For employees in finance departments at schools and universities, these tools automate many of their daily responsibilities, including generating billing statements, accepting fee payments, running customized financial reports, and maintaining compliance with laws and regulations.
