Abstracts

The electric sofa chair has different buttons. The rise and fall of the back of the sofa can be controlled by the up and down buttons on the button. With the adjustment of the electric sofa chair, the position of the person on the seat cushion will also change, such as the lowering of the back. When , people also move their hips backwards, and vice versa. The 'magic' thing about the electric sofa chair is that when sitting, the back is up, and there is no need to add a footrest in front, and the feet can fall naturally or be placed in the foot basin.
