## Abstracts

Eyes can be protected from flying debris, splashing chemicals and wafting vapors with protective eyewear. But how good is that eyewear if it flies off, slides off, or if there are gaps in the fit? When you're working with heavy machinery, precision tools, dangerous chemicals or biohazards, the last thing you want to be thinking about is your eyeglasses not staying put. Eyewear holders can keep your glasses securely in place. We have the eyeglasses or sunglasses strap styles, as well as protective eyewear accessories to fit your needs and comfort level.
