Abstracts

Butter, ghee, and cream are fat rich dairy products that are rich in nutrients along with health-benefiting compounds like milk fat globule membrane (MFGM), conjugated linoleic acid (CLA), and short-chain free fatty acids (SCFAs). They are gaining popularity in the food industry for flavoring, baking, and cooking. Fat is an essential part of our diet and is important for good health. There are different types of fats, with some fats being healthier than the others. When consumed in large amounts, all fats, including healthy fats, can contribute to weight gain which is a major concern for this market.
