## Abstracts

Financial consulting firms provide businesses with financial advice in order to improve financial strategy, create more efficient procedures, and ultimately maximize revenue. With an in-depth understanding of the fiscal world, financial consultants carefully examine monetary aspects of businesses and are often able to offer insight that may not be apparent to those within the organization. Businesses will typically work with financial consultants during times of slow growth or while facing other uncertainties. Typically, financial consultants work directly with a company's chief financial officer or someone in a related role. Some financial consultants work in independent firms, while others work within accounting firms or larger consulting firms.
