## Abstracts

Flavour masking agents are food ingredients that are used primarily to cover undesirable flavour notes in the food products. Bitterness, vitamin and mineral flavour, glycerin flavour, metallic flavour etc. in the food product need to be masked with the flavour ingredient that gives pleasant and appealing flavour to the end-product. Flavour masking agents are not a single ingredient rather it is a system of a right combination of different agents that work together to mask the undesirable note. Commercially available flavour masking agents are a complex mixture of modifiers, enhancers and inhibitors that modifies certain flavours or enhances certain while inhibits other flavours.
