Liquid silicone rubber (LSR) is a widely used elastomer prized for its high-temperature resistance and flexible, non-stick nature. It is odorless, tasteless, mold and bacteria-resistant, and hydrophobic, making it an excellent choice for any type of product that comes in contact with food. Food grade silicone offers the strength and stress resistance required to manufacture baking trays, bottle dispensers, and other products for the kitchen and throughout the home. It can also be used to manufacture the gaskets and seals used in industrial cooking appliances.
