Abstracts

A hairbrush is a stick brush with rigid or soft bristles used in hair care for smoothing, styling, and detangling human hair, or for grooming an animal's fur.

The modern hair brush is created in United States of America by Hugh Rock in 1854. It had both elastic wire teeth and natural bristles. With the development of material and industrial capacity, the hair brush develops more types for different types. The brush stick can have cushion, or be paddle or round. The materials of brush handles are various, including ebony, rosewood, new guinea rosewood, beech, abs plastic, polyacetal, etc., and the bristles also have many material resources, such as boar bristle, horsehair, nylon, stainless steel, and so forth.
