Abstracts

Daybeds are known for their attractive and space-conscious design that doubles as both a bed and a sofa. Most daybeds are recognizably different from typical beds in that the headboard extends along one side of the daybed, rather than just the head of the bed. Daybeds are traditionally the size of a twin bed, but can be ordered to fit other mattress sizes, including twin XL, full, queen, and even king. This gives daybed its unique appearance of half sofa, half bed.
