Abstracts

Instant noodles or Instant ramen are a noodle dish, sold in a dried and precooked noodle block, with flavoring powder and/or seasoning oil. The flavoring is usually in a separate packet, although in the case of cup noodles, the flavoring is often loose in the cup. Some instant noodle products are seal packed; these can be reheated or eaten straight from the packet/container. Dried noodle blocks are designed to be cooked or soaked in boiling water before eating but can be consumed dry.
