Abstracts

Water tank fire truck means that in addition to the fire water pump and equipment, there is also a large-capacity water tank, water gun, water cannon, etc. Water and firefighters can be transported to the fire scene to fight the fire independently. It can also draw water from a water source for direct firefighting, or supply water to other fire trucks and fire-fighting spray equipment. Water supply is also available in water scarce areas. Water transport vehicles are suitable for fighting general fires. They are standing fire vehicles of public security fire brigades and full-time fire brigades of enterprises and institutions.
