Abstracts

Lancets are a pricking needle used to obtain drops of blood for testing. Lancets are being increasingly used by patients affected by cardiovascular and endocrine-related complications. Lancets are designed to only be used once, and then disposed of in a safe way.

These devices are being used for cholesterol and glucose tests, heelstick screening tests or phenylketonuria (PKU) tests in newborns, as well as for severely burned or scarred emergency patients, extremely obese patients and thrombotic-tendency patients.

This report contains market size and forecasts of Lancets in global, including the following market information:

Global Lancets Market Revenue, 2017-2022, 2023-2028, (\$ millions)
