Abstracts

Lemon eucalyptus is a tree commonly known as citron-scent gum tree. Oil is extracted from the leaves of this tree for a variety of purposes such as application to the skin as an insect repellent or medicine. Major factors that drive the market growth are rise in incidence of skin allergies and eczema, and growth in geriatric population. However, eucalyptus oil can cause adverse side effects, such as seizures, which may further lead to death on consumption.

Further, low awareness among healthcare professionals is expected to restrict the market growth. Moreover, technological advancement to develop more cost-efficient lemon eucalyptus products is expected to present lucrative opportunities for key market players.

This report contains market size and forecasts of Lemon Eucalyptus Oil in global, including the following market information:
