Abstracts

Liquid butter alternatives are used in many instances where the butter or margarine is substituted at a cost significantly lower than the butter and zero grams of trans-fat per servings. These products are extremely versatile as these will not burn, spatter, or scorch. The liquid butter alternatives are used as a butter alternative in the restaurant industry. Liquid butter alternatives are also known as phase oil. It is one of the common butter substitutes majorly used in restaurants and hotels. The primary use of the phase oil is frying, but these can be further used for baking and Others recipes. Few of the benefits of the butter alternative driving the sales is the authentic buttery taste, the lightly salted formula, the high heat tolerance, convenience and the cost effectiveness.
