Plumber's Tape is a term used to describe two different items used in plumbing, which have entirely different applications. Plumber's tape helps you get a watertight seal on threaded pipe joints. It also helps lubricate the connection, making the threading a bit smoother, and it helps to prevent pipes from sticking when you want to disassemble the joint. Plumber's tape is very easy to use, but there's a right way and a wrong way to apply it.
