Abstracts

This report focus on Medical Aesthetics Training market.

As with any medical field, high quality education is necessary to ensure that evidence-based knowledge ingrains into our practice. Training should challenge attendees to continuously advance their own knowledge and understanding, and keep the influence of manufacturers at an academic distance.

To meet the increased demand for aesthetic procedures, medical professionals have been expanding their scope of practice by obtaining certifications in aesthetic medicine.

Broadly speaking, aesthetic medicine is the specialty that deals with the modification of an individual's physical appearance for any number of reasons. The scope of aesthetic medicine ranges from invasive procedures such as reconstructive surgery to non-invasive procedures that do not require general anesthesia.
