A virtual meeting can be defined as an occurrence or a succession of events where people engage from multiple locations via the Internet. A virtual meeting could be held where all the participants are practicing at the same time from different locations, called real time. The events could also be coordinated in accordance with the convenient time zones of the different participants. Virtual meetings are distinguishable from online chats or social media networks. This is because a virtual meet often has a specific agenda in mind that has to come as a result of the virtual meeting.
