Abstracts

Mobile phone accessories are typically packed in folding cartons and clear view boxes due to their characteristics to facilitate small volumes and customised printing. Thermoformed blisters and clamshells are also in trend due to their attractive and effective packaging. Manufacturers are inclining towards designing and delivering plastic thermoformed products. In the recent years it has been observed that there is a high adoption of smartphones across various regions owing to the proliferation of mid-range and low-range smartphones. Increasing demand for smartphones is positively impacting the demand for accessories as well.
