Abstracts

Monk fruit, also known as lo han guo or Swingle fruit (*Siraitia grosvenorii*), is a small round fruit native to southern China. It has been used for centuries in Eastern medicine as a cold and digestive aid, and now it is also being used to sweeten foods and beverages. Monk fruit sweeteners are created by removing the seeds and skin of the fruit, crushing the fruit, and collecting the juice. The fruit extract, or juice, contains zero calories per serving. Monk fruit sweeteners are permitted for use in foods and beverages by the U.S. Food and Drug Administration (FDA).
