Abstracts

Mortgage point of sale (POS) software facilitates the digital loan application process for both lenders and borrowers. These solutions streamline mortgage applications by providing a borrower portal designed to handle loan applications. Mortgage POS software also provides loan document generation functionality and automates credit pulls upon application completion. The goal of mortgage POS solutions is to make the loan application process almost entirely self serve for borrowers and automate the processing of applications for lenders. These tools offer customizable workflows, so lenders can craft the borrower experience that they want. Mortgage POS solutions may offer tools to facilitate collaboration between loan officers and borrowers, and some automate updates so loan officers are made aware of every development within their pipeline of borrowers.
