Abstracts

Movable walls (also referred to as unitized walls) are built completely off-site at the manufacturer's facility. This lends itself to better quality control and a more uniform wall product. There are some main parts that need to be installed on-site: ceiling and floor channels to hold the walls in place; the actual wall panels and doors; trim and finishing; and power and data components. This allows the movable walls to be installed and relocated very quickly. However, those Portable room dividers and screens are out of our statistical range.

This report contains market size and forecasts of Movable Walls in global, including the following market information:

Global Movable Walls Market Revenue, 2017-2022, 2023-2028, (\$ millions)

Global Movable Walls Market Sales, 2017-2022, 2023-2028, (K Sqm)
