Abstracts

Multienterprise supply chain business networks support a community of trading partners that need to work and communicate/collaborate on business processes that extend across multiple enterprises, with an end-to-end / shared focus. Such networks are owned and managed by third-party software vendors, and provide their community of buyers, sellers and partners with multienterprise functionality, services and security. It is the shift from enterprise centric mindset to a real multienterprise in support of the DDVN outside-in approach.
