Abstracts

In order to prevent knee injuries on the job, worker should always be wearing knee pads. Knee pads come in a variety of styles and are made from many different materials. They vary significantly in comfort and performance on the job. Some knee pads are very flexible and designed for light duty work. There are also a variety of foam ones that come in different thicknesses. Worker can also get rubber knee pads in a variety of different styles from molded rubber to natural rubber. Worker can even get leather knee pads, not as much cushioning but durable nonetheless. Another style is gel knee pads. Gel knee pads are a more comfortable option. They form to worker's knees as worker change worker's position.
