Abstracts

Organic banana flakes refer to flakes that are derived from organically grown bananas without the application of nitrogen-based fertilizers, fungicides, or pesticides. They are mainly derived from red bananas that are allowed to wine ripen under completely organic conditions. Later they are handpicked and air-dried. The organic banana flakes have the same flavor characteristics of freshly peeled bananas.

They are very suitable for fruit preparations, powdered drinks, and cake mixes. The organic banana flakes are grown without the use of GMOs or additives. They are gluten-free and are derived from 100% naturally ripened dried bananas. They are rich in vitamin C & B6, dietary fibers, and other minerals such as manganese & potassium.
