Abstracts

Insurance fraud is any act committed to defraud an insurance process. This occurs when a claimant attempts to obtain some benefit or advantage they are not entitled to, or when an insurer knowingly denies some benefit that is due. In recent years, there has been a growing trend toward insurance investigative outsourcing. A number of major insurers in the U.S. have turned their insurance investigative activities over to outside service providers. Insurers are finding that insurance investigative outsourcing delivers impressive results when it comes to tackling fraud along with considerable cost savings and other bottom line benefits.
