Abstracts

In the food service, public utilities and household industries, increasing demand for paper straw for various end uses is a key factor. Factors such as increased consumer demand for environmentally-friendly straws will contribute to the growth of the paper straw market. The food and beverage service segment in the paper straw market will grow at a compound annual growth rate with the highest value growth due to the adaptation of environmentally friendly alternatives for single-use disposable products to avoid or prohibit the use of plastic straws Other disposable items. It is expected that in the near future, demand for the papyrus market will increase significantly due to increasing awareness of sustainability and the surge in the number of bans on disposable plastic products in the food service industry.
