## Abstracts

Plant-based Meat made from plants such as soy. It is especially designed and created to look like, taste like, and cook like conventional meat. Artificial meat can be in the form of a burger patty, nuggets, or even crumbles and sausages and as it grows more popular, these veggie-based alternatives are shaking up the meat industry and everything we thought we knew about veggie burgers. Products from different manufacturers have different formulas. Different types of protein and different taste. Therefore, the source of plant protein in plant meat is basically a compound formula composed of soy protein, broad bean protein, and chickpea protein etc.
